www.empyrealind.com

Empyreal Industries Inc. stands as a distinguished leader in the realm of smart metal fabrication engineering and the distribution of building and interior materials within India. Spearheaded by Promoter Divya Gorle, a visionary entrepreneur with a wealth of industry expertise, our company prides itself on delivering exceptional quality products & services. With a robust manufacturing capacity, we are equipped to meet the demands of our clients with precision and efficiency.

VISION

At Empyreal Industries, our mission is to provide cutting-edge smart engineering solutions in metal fabrication, driving innovation and excellence in the industry

MISSION

We aspire to be the foremost provider of smart engineering solutions, playing a pivotal role in India's industrial growth and sustainability.

Promoter Divya Gorle

Divya possesses innate entrepreneurial skills and is a results-driven, resourceful Managing Director with a proven ability to develop and strengthen management teams to maximize company efficiency. With extensive experience in leading and growing all sectors of a business, she transforms organizations into dynamic and progressive entities. Divya excels in communication, establishing sustainable, and profitable relationships with customers, suppliers, and stakeholders.

In her role as an advisor at AMP Sunmar (LIP), Divya achieved top sales in Vidharbha in 2003, earning recognition from the company during a table meeting in Australia.

Currently overseeing logistical support and HR, Divya is responsible for the day-to-day operations of the business, with a focus on sales and business development. She excels in identifying new business opportunities by cultivating relationships with potential customers.

With a wealth of expertise in the CNC machining and tooling sector, Divya's track record extends to the mining, telecom, and renewable energy fields. She has a proven record of success in sales and business development, adept at generating leads

from marketing campaigns and meeting sales quotas. Divya's exceptional communication skills enable her to cultivate strong customer relationships, from initial contact through to closing deals, all while ensuring proper after-sales service.

Ultimately, Divya's contributions are integral to boosting sales and fostering long-term business growth.

Our Expertise

At Empyreal Industries, we specialize in crafting high-quality metal fabrication and engineering products, setting new benchmarks for excellence within the industry. Our commitment to innovation extends to the realm of renewable energy, where we manufacture world-class solar module installation structures, ensuring enduring stability in solar generation systems. By prioritizing cutting-edge technology & sustainable practices, we are dedicated to shaping a greener and brighter future for all.

Core Values

At Empyreal Industries, we specialize in crafting high-quality metal fabrication and engineering products, setting new benchmarks for excellence within the industry. Our commitment to innovation extends to the realm of renewable energy, where we manufacture world-class solar module installation structures, ensuring enduring stability in solar generation systems. By prioritizing cutting-edge technology and sustainable practices, we are dedicated to shaping a greener and brighter future for all.

Key Highlights

- Empyreal Industries Inc. is at the forefront of India's burgeoning smart engineering in metal fabrication sector.
- Our state-of-the-art manufacturing unit is renowned for its excellence, equipped with advanced technologies to produce superior products.
- We specialize in manufacturing high-quality smart engineering solutions, catering to diverse industry needs.
- With a proven track record of successfully executed projects across various sectors, we are trusted partners in driving innovation and progress.

Professional Sales & Marketing Team

Empyreal Industries boasts a highly skilled and dedicated sales and marketing team specializing in building and interior materials. With a keen understanding of market dynamics and consumer preferences, our team formulates daily marketing plans tailored to achieve desired targets efficiently. Leveraging their expertise in market analysis and customer engagement, they ensure strategic positioning of our products to maximize visibility and sales opportunities. Committed to excellence and customer satisfaction, our sales and marketing professionals play a pivotal role in driving the success of Empyreal Industries in the competitive landscape of building and interior material supply.

At Empyreal Industries Inc., we merge smart engineering expertise with cutting-edge technology to deliver unparalleled solutions in metal fabrication. Whether it's bespoke metal components or solar module installation structures, our commitment to excellence remains unwavering in every endeavor.

Our Strength

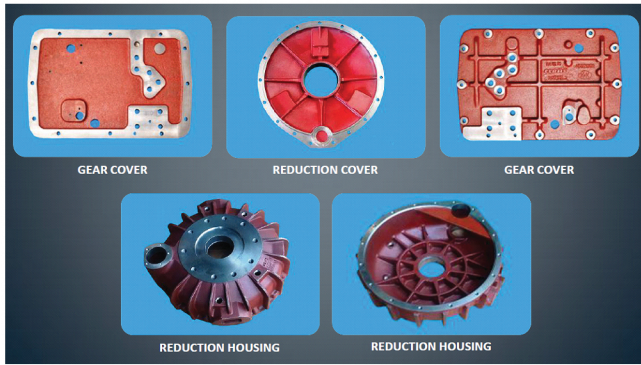

- We have a team of well-qualified and professional executives supported by an effective organizational structure.
- We offer a wide range of machined castings in Grey Iron weighing between 0.5 to 100 kg and SG Iron weighing between 0.5 to 75 kg, all in a single piece.
- We prioritize strong PEOPLE practices, reflected in our average employee age group of 40 years, ensuring a mature and experienced workforce.
- Our low attrition rates among both direct and indirect employees contribute to the retention of valuable knowledge and skills.
- We consistently achieve timely agreements for blue-collar workers, fostering a healthy organizational environment.
- We have institutionalized processes for Kaizen, continuous process improvements, and problem-solving techniques.
- Our capabilities enable us to develop parts 'first time right' & deliver within committed time frames.
- We possess the flexibility to adapt to emerging trends and readily absorb new technologies.

LAB Shop Feature

- 01 Press Machine
- 01 Marking Machine
- 04 Leakage Test Machines
- 02 Component Cleaning Machines
- 01 5 Tank Electro Violet Cleaning Facility
- 01 Millipore Testing Equipment
- 04 Packing Machines
- 01 Optical Profile Projector
- 01 Digital Flatness Measuring Equipment
- 02 Surface Roughness Testers - Mitutoyo
- 02 2D Height Masters - Mitutoyo
- 01 3D CMM (Contura) 700 x 1000 x 600 - Carl Zeiss
