

REPORT A SECURITY ISSUE

At **Gorle Global Group**, we take the security of our systems, services, and products seriously. If you have discovered a vulnerability or security issue on our website, we encourage you to report it to us as soon as possible. Your responsible disclosure helps us to ensure the safety and security of our users.

How to Report a Security Issue

To report a potential security issue, please follow these steps:

1. Identify the Issue:

- Provide a clear and concise description of the security vulnerability you have identified.
- Include any steps or actions required to reproduce the issue.

2. Include Relevant Information:

- Your contact information (e.g., name, email address) so we can follow up with you.
- Any relevant screenshots, logs, or other supporting evidence that may help us understand the issue better.

3. Send Your Report:

- Email your report to our dedicated security team at **infogorle@gmail.com**
- Use the subject line: "Security Issue Report - [Brief Description of the Issue]".

What to Expect After Reporting

1. Acknowledgment:

- We will acknowledge receipt of your report within 10 business days.
- Our security team will begin investigating the reported issue.

2. Investigation:

- We will evaluate the issue and determine its impact on our systems and users.
- We may contact you for additional information during this process.

3. Resolution:

- If the issue is validated, we will take appropriate measures to fix the vulnerability.
- We will keep you informed about the progress and resolution of the issue.

4. Responsible Disclosure:

- We ask that you do not publicly disclose the issue until we have had a reasonable opportunity to address it.
- Once the issue is resolved, and if you wish, we can publicly acknowledge your contribution.

Our Commitment to Security

We are committed to maintaining a safe and secure environment for our users. Your proactive approach in reporting vulnerabilities plays a crucial role in achieving this goal. We greatly appreciate your assistance in keeping our systems secure.
